Australia

Join Jason Battista for a presentation about his native Australia. Australia is a country of similar geographic size to the United States, but with a population of only 20 million. What defines an Australian and the lifestyle they enjoy? What are the natural beauties of the country? How do the United States and Australia differ? These are only a sample of the topics Jason Battista will cover in his presentation. Please bring family and friends and enjoy this insightful and thought provoking presentation.

INTERNATIONAL FRIENDS

Here is an idea to expand the "Family". Plan a time for your student to come to your home with a friend and also invite some of your neighbors and friends for the evening. Play some games or just sit and talk while munching a bit. Very likely your community guests will enjoy the students so much that they will ask how they can have their own international student friend. Tell them they can apply at fortcollinsinternationalcenter.org and click on Programs.

INTERNATIONAL NIGHT AT THE LIBRARY

Here is a chance to share your international experiences.

The INL committee is always looking for folks who would like to share their international experiences with the community. If you are interested in presenting or know someone who would like to present, please contact Mark Oberschmidt at 490-2434 or obermurray@comcast.net. Contact Mark also if you interested in joining the committee to assist in finding presenters and be a MC at one of the three libraries. There are very few meetings and being the MC at a presentation requires about 2-3 hours of time to set-up, introduce the speaker and take down the chairs.
